## The Glason SURFACE SEALERS Range

PRODUCT	SIZE	RETAIL
<p><b>WONDERBOND™ W.B. SEALANT</b></p> <p>Glason W.B.SEAL is a high solids, waterborne acrylic sealer designed for use on high traffic pedestrian and vehicular areas to protect and beautify the surface.</p> <p>The special blend of resins in <b>W.B.SEAL</b> are designed to resist staining from fat, sump oil, grease, petrol and acids without harming the finish.</p>	<p>1 litre</p> <p>2 litre</p> <p>5 litre</p> <p>15 litre</p> <p>20 litre</p>	<p>\$ 35.00</p> <p>\$ 65.00</p> <p>\$ 125.00</p> <p>\$ 330.00</p> <p>\$ 440.00</p>
<p><b>WONDERSEAL™ A.F. SEALANT</b></p> <p><b>A.F. SEAL</b> is a deep penetrating sealer that has been designed specifically to protect treated surfaces from destructive water ingress while allowing the surface to “breathe” the way nature intended.</p> <p>It is this unique principal that allows <b>A.F.SEAL</b> to severely limit the formation of mould, moss and lichen growth while limiting the ingress of waterborne pollutants in treated stone, masonry and timber.</p> <p>Unlike conventional coatings, <b>A.F.SEAL</b> will penetrate deep into the pores of the surface (up to 25mm in sandstone) and cannot wear off regardless of traffic and climatic conditions giving the user considerable service life. Because of this penetrative action <b>A.F.SEAL</b> will leave most surfaces looking totally natural with no tell-tale gloss or finish.</p>	<p>4 litre</p> <p>20 litre</p>	<p>\$ 90.00</p> <p>\$ 346.50</p>
<p><b>WONDERSEAL™ G.L. 2000 SEALANT</b></p> <p>Glason GL 2000 is a clear, penetrating, waterborne sealant system designed for use on masonry pavers and blocks, concrete, open pore tiles and natural stone.</p> <p><b>GL 2000</b> is not a coating, but a “plug” that is designed to expand and grow upon application. This effectively eliminates the ingress of most stubborn stains such as cooking oils, body fats and most water based materials yet allows the surface to “breathe” the way nature intended.</p>	<p>5 litre</p> <p>15 litre</p> <p>20 litre</p>	<p>\$ 145.00</p> <p>\$ 360.00</p> <p>\$ 440.00</p>

## *The Glason AIR-TECH Odour Cleaning Range*

### **AIR-TECH ELIMINATOR**

**AIR-TECH ELIMINATOR** is a scientifically tailored safe chemical system for eliminating the resident odours in concrete and other porous surfaces. Resident odour is the nasty smell that remains after cleaning around waste pits, garbage areas and even freight containers and trucks.

**ELIMINATOR** is designed to “chase’ into the surface and destroy the cause of these odours not just mask it with a pretty perfume.

This product is supplied as a ready to use liquid with a eucalyptus fragrance.

1 litre \$ 12.95

5 litre \$ 49.95

15 litre \$ 137.50

### **AIR-TECH LIQUID LID**

Just as the name suggests, **LIQUID LID** is designed to form a natural liquid barrier to prevent odours in waste pits, treatment and settling ponds or indeed where any liquid storage causes odour problems.

**LIQUID LID** forms a thin liquid barrier that effectively destroys odour as they pass through the barrier. The system also aids in the growth of helpful bio organisms that help to break down the waste.

5 litre \$ 135.00

15 litre \$ 341.05
